

Culligan Water®

**No salt. No scale.
No worries.**

Meet the Aquasential™ Salt-Free Conditioner

Simple. Safe. Salt-free.

If your goal is to provide the most natural water possible for your home and family, our Aquasential™ Salt-Free Conditioner is one of the best ways to do it.

Because even though traditional water softeners are great, many areas don't allow homes to use salt to soften their water. That's why our salt-free conditioner is designed to naturally condition water and minimize harmful scaling, with no need for backflushing or salt.

It's good for the environment. It's good for your plumbing and appliances. It makes cleaning sinks and showers simple. And it doesn't require floor drains or access to electricity.

With the Aquasential Salt-Free Conditioner from Culligan, you get great-tasting water, fewer spots, and reduced scaling, all while saving time and money on maintaining your home.

The Aquasential™ Salt-Free Conditioner helps you...

CERTIFIED SAFE

Certified NSF/ANSI 372 for Lead-free compliance and to CSA B483.1 for material safety and structural integrity

Cleaner, greener, cheaper

Our salt-free water conditioner is good for your family, your wallet, and the world.

Better water for your home and family

From cooking and cleaning to washing clothes and more, wherever your water goes, our salt-free water conditioner makes it cleaner, healthier and safer for every use

It really works

Some methods of conditioning water, like magnetic systems, may sound high-tech, but they don't deliver on what really matters: cleaner, safer water.

Perfect for any home
